

OSE 2050 - Introduction to Photonics Engineering Design

Section: 0001

Optics and Photonics

Course Information

Term: Spring 2025

Class Meeting Days: T

Class Meeting Time: 06:00PM - 07:50PM Class Meeting Location: CROL A210

Modality: P

Credit Hours: 1.00

Instructor Information

Joshua Kaufman

Office Location: A312

Office Hours:

Thursdays 10am - 12pm

Email: kaufman@creol.ucf.edu

Teaching Assistants

Michael Rusinko - michael.rusinko@ucf.edu

Garrett Webb - garrett.webb@ucf.edu

Cooper Reid - james.reid@ucf.edu

Course Description

OSE 2050 OPTIC-OPTICS 1(0,2)Introduction to Photonics Engineering Design: PR: Rule Not Selected Hands-on experiments on real-life optics & photonics, to develop abilities in design, control, and communication with photonic devices used in computers and/or smartphones. Spr.

In this course, you will learn about basic photonic devices as well as get a beginner's understanding of programming in the Arduino IDE. By the end of this course, you should feel comfortable designing basic circuits and devices using photonic elements and an Arduino. In short, you will start learning how to think like an engineer.

Student Learning Outcomes

After successful completion of this course, students will be able to: do basic programming in the Arduino IDE, build basic circuits using a breadboard, resistors, LEDs, photoresistors, photodiodes, laser diodes, push buttons, 7-segment displays, and an LCD touch screen.

Course Assessment and Grading Procedure

Attendance		50%	
Quizzes		20%	
Final Project		30%	
	Total	100%	

Final Project: Students will choose one from selected topics where they design their modules and demonstrate them.

Financial Aid and Attendance: All faculty members are required to document students' academic activity at the beginning of each course. This will be documented by a quick Webcourses quiz. Failure to do so will result in a delay in the disbursement of your financial aid.

Grading Scale (%)			ale (%)	Rubric Description
100	2	Α		90	Excellent, has a strong understanding of all concepts
					and is able to apply the concepts in novel situations. Has
					full mastery of the content of the course.
90	≥	В		80	Good, has a strong understanding of most or all of the
					concepts and is able to apply them to stated and defined
					situations.
80	2	С		70	Average, has a basic understanding of the major
					concepts of the course and is able to apply to basic
					situations.
70	2	D		60	Below average, has a basic understanding of only the
					simple concepts and is able to apply to only a limited
					number of the most basic situations.
60	2	F	≥	0	Demonstrates no understanding of the course content.
					Absent the class three times.

Assignment Schedule

Due Date	Assignment Name	Assignment Type	Points
1/10/25	Academic Activity Quiz	Quiz	1

					simple concepts and is able to apply to only a limited
					number of the most basic situations.
60	≥	F	≥	0	Demonstrates no understanding of the course content.
					Absent the class three times.

Policies for Course Grade

Makeup Work Policy - Attendance is required and comprises the largest portion of the course grade (50%). It is very difficult to make up work that is missed, but a student will be offered the opportunity to submit pictures and videos of circuits they construct. If a very good excuse for missing class is given (medical excuse or other major emergency), partial or whole credit for the absence may be given on a case by case basis.

Missed/Late Assignments - There are occasionally in-class quizzes. If you miss a class that contained a quiz, you will be given the opportunity to submit the quiz during that week. However, you will still lose credit for attendance on that day without a proper excuse.

Attendance - Attendance is required. If you miss class, you will get a 0 on attendance for that day. If a proper excuse is given, an exception may be made on a case by case basis.

Course Accessibility

The University of Central Florida is committed to providing access and inclusion for all persons with disabilities. Students with disabilities who need access to course content due to course design limitations should contact the professor as soon as possible. Students should also connect with Students Should also connect with Student Accessibility Services (SAS) (Ferrell Commons 185, sas@ucf.edu, phone 407-823-2371). For students connected with SAS, a Course Accessibility Letter may be created and sent to professors, which informs faculty of potential course access and accommodations that might be necessary and reasonable. Determining reasonable access and accommodations requires consideration of the course design, course learning objectives and the individual academic and course barriers experienced by the student. Further conversation with SAS, faculty and the student may be warranted to ensure an accessible course experience.

Academic Integrity

Students should familiarize themselves with UCF's Code of Conduct at <u>Student Conduct</u> and <u>Integrity Office</u>. According to Section 1, "Academic Misconduct," students are prohibited from engaging in:

a. Academic misconduct is defined as any submitted work or behavior that obstructs the instructor of record's ability to accurately assess the student's understanding or completion of the course materials or degree requirements (e.g., assignment, quiz, and/or exam). Examples of academic misconduct include but are not limited to: plagiarism, unauthorized assistance to complete an academic exercise; unauthorized communication with others during an examination, course assignment, or project; falsifying or misrepresenting academic work; providing misleading information to create a personal advantage to complete course/degree

- requirements; or multiple submission(s) of academic work without permission of the instructor of record.
- b. Any student who knowingly helps another violate academic behavior standards is also in violation of the standards.
- c. Commercial Use of Academic Material. Selling of course material to another person and/or uploading course material to a third-party vendor without authorization or without the express written permission of the University and the instructor of record. Course materials include but are not limited to class notes, the instructor of record's slide deck, tests, quizzes, labs, instruction sheets, homework, study guides, and handouts.
- d. Soliciting assistance with academic coursework and/or degree requirements. The solicitation of assistance with an assignment, lab, quiz, test, paper, etc., without authorization of the instructor of record or designee is prohibited. This includes but is not limited to asking for answers to a quiz, trading answers, or offering to pay another to complete an assignment. It is considered Academic Misconduct to solicit assistance with academic coursework and/or degree requirements, even if the solicitation did not yield actual assistance (for example, if there was no response to the solicitation).

Responses to Academic Dishonesty, Plagiarism, or Cheating

Students should also familiarize themselves with the procedures for academic misconduct in UCF's student handbook, *The Golden Rule*. UCF faculty members have a responsibility for students' education and the value of a UCF degree, and so seek to prevent unethical behavior and respond to academic misconduct when necessary. Penalties for violating rules, policies, and instructions within this course can range from a zero on the exercise to an "F" letter grade in the course. In addition, an Academic Misconduct report could be filed with the Office of Student Conduct and Academic Integrity, which could lead to disciplinary warning, disciplinary probation, or deferred suspension or separation from the University through suspension, dismissal, or expulsion with the addition of a "Z" designation on one's transcript.

Being found in violation of academic conduct standards could result in a student having to disclose such behavior on a graduate school application, being removed from a leadership position within a student organization, the recipient of scholarships, participation in University activities such as study abroad, internships, etc.

Let's avoid all of this by demonstrating values of honesty, trust, and integrity. No grade is worth compromising your integrity and moving your moral compass. Stay true to doing the right thing: take the zero, not a shortcut.

Title IX

Title IX prohibits sex discrimination, including sexual misconduct, sexual violence, sexual harassment, and retaliation. If you or someone you know has been harassed or assaulted, you can find resources available to support the victim, including confidential resources and information concerning reporting options at <u>Let's Be Clear</u> and <u>UCF</u> Cares.

For more information on diversity and inclusion, Title IX, accessibility, or UCF's complaint processes contact:

- Title IX OIE Office of Institutional Equity & askanadvocate@ucf.edu
- Disability Accommodation Student Accessibility Services <u>Student Accessibility</u>
 <u>Services</u> & <u>sas@ucf.edu</u>
- Access and Community Engagement (including the Ginsberg Center for Inclusion and Community Engagement, Military and Veteran Student Success, and HSI Initiatives)
- UCF Compliance and Ethics Office <u>Compliance, Ethics, and Risk Office</u> & <u>complianceandethics@ucf.edu</u>
- The <u>Ombuds Office</u> is a safe place to discuss concerns.

Reporting an Incident or Issue

If you believe you have experienced abusive or discriminatory behavior by any faculty or staff member, contact the Office of Institutional Equity online or at 407-823-1336. You can also choose to report using the UCF Integrity Line and can report anonymously or as yourself at 1-855-877-6049 or using the online form. UCF cares about you and takes every report seriously. For more information see the Reporting an Incident or Issue Webpage.

Deployed Active-Duty Military Students

Students who are deployed active duty military and/or National Guard personnel and require accommodation should contact their instructors as soon as possible after the semester begins and/or after they receive notification of deployment to make related arrangements.

Campus Safety

At UCF Public Safety and Police, safety is the top priority. Emergencies on campus are rare, but if one should arise, it's important to be familiar with some basic safety and security concepts.

- In an emergency, always dial 911.
- Every UCF classroom has an Emergency Procedure Guide posted on a wall near the door, which will show you how to respond to a variety of situations. This guide can also be found online here.
- In the event of an active threat, remember **AVOID**, **DENY**, **DEFEND**. Choose the best course of action and act immediately. Watch the video here to learn more.
 - AVOID. Pay attention to your surroundings and have an exit plan. Get as much distance and as many barriers between you and the threat as quickly as possible.
 - DENY. When avoiding is difficult or impossible, deny the threat access to you
 and your space. Lockdown by creating barriers, turning the lights off and
 remaining quiet and out of sight. Make sure your cell phone is silenced, but
 do not turn it off.
 - DEFEND. When you are unable to put distance between yourself and the threat, be prepared to protect yourself. Commit to your actions, be aggressive and do not fight fairly. Do whatever it takes to survive.
- For emergencies on campus, UCF will utilize the <u>UCF Alert</u> system. All UCF students, faculty and staff are automatically enrolled to receive these email and text alerts, however, it's a good idea to frequently ensure your <u>contact information is up to date</u>.

Financial Aid Accountability

All instructors/faculty are required to document students' academic activity at the beginning of each course. In order to document that you began this course, please complete this activity by the end of the first week of classes or as soon as possible after adding the course. Failure to do so may result in a delay in the disbursement of your financial aid.

Class Schedule

Week	Topic				
1	Introduction and Module1 Basics of Arduino Basics of Programming: Sketch LED control & dimming				
2	Module1: Hello LED LED digital dimming LED switch (pushbutton)				
3	Module1: Hello LED LED switch (counting) LED wand Module2: Smart Home Photoresistor				
4	Module2: Smart Home Photodiode Integration of LED and light sensing Seven segment display				
5	Module2: Smart Home Libraries Auto-dimming People counter				
6	Module3: Touch screen display Basic functions Controlling LED with touch screen				

Week	Торіс
	Module3: Touch screen display
7	LED dimming with touch screen
	Light sensing and display with touch screen
	Graphing & statistics
	Module4: Smart Auto
0	LIDAR
8	Measuring distance with light
	Module4: Smart Auto
0	Proximity sensor and warning
9	Exporting data using MATLAB (serial communication)
	Module4: Smart Auto
10	1D LIDAR imaging
10	Servo
	Module5: Imaging
11	Camera (ArduCam)
	Image processing
	Module5: Imaging
	Optical microscope
12	Measuring feature size
	Imaging & LIDAR
13	Final Project: Showcase Group 1
14	Final Project: Showcase Group 2
15	
16
